INVITATION TO ATTEND WEBINAR

OPRA Turbines is a leading developer and manufacturer of advanced radial gas turbines and gas turbine powered generator sets utilized for industrial and oil & gas applications. We are pleased to invite you to join our webinar on oil & gas applications. Register to hear about the technology from OPRA Turbines with case studies and feasibility studies from Application Engineers. Familiarize yourself with smaller gas turbine technology and gain ideas and solutions for the oil and gas industry. You are welcome to pass on this invite to anyone you feel might find this interesting.

The OP16 Gas Turbine and Oil & Gas Applications
Feasibility studies and a case study on the suitability of the OP16 in the oil and gas industry

Date: Wednesday, February 24, 2016
Duration: 45 minutes
Price: Complimentary
Time: The presentation will be held twice for different time zones. Please select the time that suits you best.

**SESSION 1**
- Amsterdam 10.00AM
- New York 4.00AM
- Jakarta 3.00PM

**SESSION 2**
- Amsterdam 5.00PM
- New York 11.00AM
- Jakarta 10.00PM

Click here to register for Session 1
Click here to register for Session 2
Password: OP16session1
Password: OP16session2

Key learning objectives:

- Learn about fuel flexible and clean gas turbine power
- Learn about challenging fuels and how to utilize them for power generation
- Learn about the advantages of the OP16 gas turbine for offshore and onshore oil and gas applications
- Learn about how to minimize flaring and the utilization of wellhead gas and associated gases in the OP16 gas turbine, exemplified by case studies.

There will also be a live Q&A at the conclusion of the presentation. For more information please don’t hesitate to send an email to webinar@opraturbines.com.
